Toronto Implant Institute Presents:

PERIODONTAL SURGERY & SOFT TISSUE GRAFTING

Dr. Hom-Lay Wang
DDS, MSD, PhD
Feb 19-21 & Apr 23-25, 2027

OVERVIEW

The **Periodontal Surgery & Soft Tissue Grafting Series** with Dr. Hom-Lay Wang is a comprehensive program consisting of **two, three-day sessions**, designed to equip dentists with advanced skills in periodontal therapy and soft tissue management around natural teeth and dental implants. Each course combines in-depth didactic lectures with hands-on workshop training, providing participants with practical experience to immediately integrate into their practice.

By the end of the series, dentists will gain the knowledge, clinical skills, and confidence to integrate advanced periodontal and peri-implant procedures into their everyday practice, enhancing both functional outcomes and esthetic results.

Transforming surgical techniques into esthetic excellence

COURSE OUTCOMES

Periodontal Surgery - **February 19 - 21, 2027**

Understand the latest periodontal disease classifications, advanced flap designs, suturing techniques, and surgical procedures to manage common defects such as infrabony and furcation lesions. The course covers the use of bone grafts, barrier membranes, and guided tissue regeneration, offering a complete approach to contemporary periodontal therapy.

Soft Tissue Grafting - April 23 - 25, 2027

Master a range of grafting techniques to address soft tissue deformities and achieve esthetic outcomes around natural teeth and implants. Learn to assess periodontal and peri-implant phenotypes, apply decision-making frameworks for selecting materials and techniques, and practice procedures such as coronally advanced flaps, tunneling approaches, and combination grafting techniques. Key concepts such as the esthetic triangle and implant esthetic index are introduced to ensure predictable and esthetically pleasing results.

Registration Fees:

Single Session: $3,895 plus HST (13%)

Both Sessions: $5,895 plus HST (13%)
